

SECTION III: ADDRESSING THE STANDARDS

VCSU has provided a list of the primary courses and experiences tagged to each InTASC Standard. The Education Preparation Provider (EPP) included a written narrative description as well as evidence gathered through the use of multiple assessments and a variety of sources to gain perspectives on teacher candidates' performance and levels of confidence in their preparation. The overall efforts engage teacher candidates, faculty, staff, cooperating teachers, administrators, university supervisors, completers, employers from partnering schools and many others. The InTASC Standards and data gathered, analyzed, and shared toward meeting those standards are useful for data-decision making for continuous improvement.

Please click on each InTASC Standard on the left to review the narrative descriptions and evidence for addressing and meeting each InTASC Standard.
